

Dahua 360° Panorama IP Solution

See the World from a Wider Vision

Dahua 360° Panorama IP Camera is a 360 degree super wide view camera which captures an increased level of detail over a wider area in contrast to the conventional IP Camera. With the ultra wide-angle fisheye lens, the new series camera can produce strong visual distortion to create wide panoramic or hemispherical image.

Dahua 360° Panorama IP Camera provides an innovated IP solution for large-scale surveillance. As one camera is enough to cover the whole scene, customers no longer need to install multiple cameras, which in consequence dramatically reduces the costs.
