Version Changes	
× Serv-U Servers	r >> Image: Constraint of the second se
<pre></pre>	Down: 0.000 kBps / Up: 0.000 kBps 3 of 32767 Sockets 0 (0) Users 0 Xfers

3、Test the FTP server by log in the FTP folder through web server or other FTP tools

😰 ftp://10.10.2.123/								
Log On	As							
<b>?</b> >>	Either the server does not allow anonymous logins or the e-mail address was not accepted.							
	FTP server:	10,10,2,123						
	<u>U</u> ser name:	wub			~			
	<u>P</u> assword:	•••						
	After you log on, you can add this server to your Favorites and return to it easily.							
	FTP does not encrypt or encode passwords or data before sending them to the server. To protect the security of your passwords and data, use Web Folders (WebDAV) instead.							
	Learn more about <u>using Web Folders</u> .							
	Log on anonymously							
				Log On	Cancel			

e.g: Use user *wub* for <u>ftp://10.6.2.101/wb</u>, log in and create new file

## $2 \mathbf{v}$ DVR settings

- 1. Now we can upload alarm recordings and motion detection recordings to the FTP server. In order to upload files to FTP, you must set alarm and motion detection record in schedule, this mean the recording file must exist in the DVR's HDD
- 2. Set the FTP server IP, port and dir folder, the user name and password for the FTP server

	FTP S	Setting	X

- 3. Set the file length, interval, choose the recordings type and period for each channel
  - 1. Length: how many space of the video that need upload to FTP. If the actual space is more than the value, it will cut the file,For example, in here ,only the first 1M video will be uploaded.
  - 2, interval: In the setting period if there are more than one recording video ,it will upload the first one. Choose 0 means upload all recordings

### 4、Get recordings

1. You can get he upload recordings in the FTP fould

1. Tou can get ne upload recordings in the PTP Tould
