# **SmartPSS Lite Attendance Solution**

## User's Manual

V1.0.0

# Foreword

### General

This manual introduces the functions and operations of the attendance solution of the SmartPSS Lite (hereinafter referred to as "the Platform"). Read carefully before using the platform, and keep the manual safe for future reference.

### Safety Instructions

The following signal words might appear in the manual.

Signal Words	Meaning		
Anger Danger	Indicates a high potential hazard which, if not avoided, will result in death or serious injury.		
	Indicates a medium or low potential hazard which, if not avoided, could result in slight or moderate injury.		
	Indicates a potential risk which, if not avoided, could result in property damage, data loss, reductions in performance, or unpredictable results.		
© <u>∽∿</u> TIPS	Provides methods to help you solve a problem or save time.		
	Provides additional information as a supplement to the text.		

### **Revision History**

Version	Revision Content	Release Time	
V1.0.0	First release.	April 2022	

### **Privacy Protection Notice**

As the device user or data controller, you might collect the personal data of others such as their face, fingerprints, and license plate number. You need to be in compliance with your local privacy protection laws and regulations to protect the legitimate rights and interests of other people by implementing measures which include but are not limited: Providing clear and visible identification to inform people of the existence of the surveillance area and provide required contact information.

### About the Manual

- The manual is for reference only. Slight differences might be found between the manual and the product.
- We are not liable for losses incurred due to operating the product in ways that are not in compliance with the manual.
- The manual will be updated according to the latest laws and regulations of related jurisdictions. For detailed information, see the paper user's manual, use our CD-ROM, scan the QR code or visit our official website. The manual is for reference only. Slight differences might be found between the electronic version and the paper version.
- All designs and software are subject to change without prior written notice. Product updates

might result in some differences appearing between the actual product and the manual. Please contact customer service for the latest program and supplementary documentation.

- There might be errors in the print or deviations in the description of the functions, operations and technical data. If there is any doubt or dispute, we reserve the right of final explanation.
- Upgrade the reader software or try other mainstream reader software if the manual (in PDF format) cannot be opened.
- All trademarks, registered trademarks and company names in the manual are properties of their respective owners.
- Please visit our website, contact the supplier or customer service if any problems occur while using the device.
- If there is any uncertainty or controversy, we reserve the right of final explanation.

## **1 Overview**

The attendance solution is helpful for attendance management, such as shift arrangement, attendance query and attendance exception. It is also available for management of attendance terminal, management of user authority and log viewing.

# 2 Attendance Guide

You can quickly use the common functions of attendance here.

- <u>Step 1</u> Click **Attendance Solution** in the left bar.
- <u>Step 2</u> Click **Attendance Guide** on the lower-right corner of the home page.
- <u>Step 3</u> Configure functions in the order from top to bottom and from left to right. For details on how to use these functions, see the corresponding chapters.

#### Table 2-1 Functions of attendance guide

No.	Functions	Description
1	Device Manager	For details, see SmartPSS Lite_General_User's Manual.
2	Personnel Manager	For details, see "3 Personnel Management".
3	Attendance Period	For details, see "4 Attendance Period".
4	Attendance Shift	For details, see "5 Attendance Shift".
5	Shift Schedule	For details, see "6 Shift Schedule". Configure <b>Holiday</b> before arranging shift schedule, and then the shift schedule will skip the holiday automatically. For on about holiday setting, see "10 Holiday".
6	Attendance Processing	For details, see "7 Attendance Processing".
7	Attendance Statistics	For details, see "8 Attendance Statistics".
8	Report	For details, see "9 Report Query".

No.	Functions	Description
		nce functions, you can also set attendance calculation rules and e "11 Attendance Configuration".

# **3 Personnel Management**

You can manage department information and staff information.

### 3.1 Department Management

You can add, modify or delete department. Here uses the department adding as an example.

- <u>Step 1</u> Click **Personnel Manager** on the home page.
- <u>Step 2</u> (Optional) Select the company, and then click *i* to modify company information, such as region, email and website.
- <u>Step 3</u> Click 🛨 in the **Department List** to add.
- <u>Step 4</u> Select a superior department, and then add a new sub-department.
- <u>Step 5</u> Click **OK** to confirm.

			ОК	Cancel

<u>Step 6</u> (Optional) Click 💼 in the **Department List** to delete.

<u>Step 7</u> (Optional) Select the department and click 🖉 in the **Department List** to modify.

## 3.2 Staff Management

You can add personnel information, issue cards, export personnel information to local, and freeze

cards.

### 3.2.1 Setting Card Type

#### Select Personnel Manger > User > Card Issuing Type.

Before issuing card, set card type first. For example, if the issued card is ID card, select type as ID card.

 $\square$ 

- The system uses hexadecimal card number by default. Click 🗊 to change to decimal card number.
- When the card number type is changed, the card number in the **Access Manger**, user's card, and **History Event** will also be changed.

rigure 5 5 Sec card type

16)					
ок	Cancel				

Figure 3-3 Set card type

### 3.2.2 Adding Staff

Select one of the methods to add staff.

- Add staff one by one manually.
- Add staff in batches.
- Extract staff information from other devices.
- Import staff information from the local.

### 3.2.2.1 Adding Staff One by One Manually

<u>Step 1</u> Select **Personnel Manger** > **User** > **Add**.

- <u>Step 2</u> Enter basic information of staff.
  - 1) Select **Basic Info**.
  - 2) Add basic information of staff.
  - 3) Take snapshot or upload picture, and then click Finish.

### $\square$

- The card number can be read automatically or filled in manually. To automatically read card number, select the card reader next to **Card No.**, and then place the card on the card reader. The card number will be read automatically.
- You can select multiple USB cameras to snap pictures.

#### Figure 3-4 Add basic information

- <u>Step 3</u> Select **Personnel Manger** > **User** > **Add** > **Certification** to add certification information of staff, and then click **Finish** to save.
  - Set password
     For second-generation access controllers, set personnel passwords; for other devices, set card passwords. New passwords must consist of 6-8 digits.
  - Configure card
    - 1. Click 💁 to select **Device** or **Card issuer** as card reader.
    - 2. Add card. The card number must be added if the non-second generation access controller is used.
    - 3. After adding, you can select the card as main card or duress card, or replace the card with new one, or delete the card.
    - 4. Click 📰 to display the QR code of the card.

#### $\square$

Only 8-digit card number in hexadecimal mode can display the QR code of the card.

- Configure fingerprint
  - 1. Click 🧕 to select **Device** or **Fingerprint Scanner** as the fingerprint collector.
  - 2. Add fingerprint. Click **Add** and **Add Fingerprint**, and then press finger on the scanner for three times continuously.
- Extract feature code

Click **Extract** to extract the face feature information from the device. This function is supported on select devices.

				Cont	tinue	Finish	Cancel

Step 5 Click Finish.

#### 

After completing adding, you can click 💉 to modify information or add details in the list of staff.

- <u>Step 6</u> (Optional) If the user you added has face unlock permission of a device (for example, ASA4214F model) with IR face feature function, and if you want to grant the user face unlock permission of other devices with IR face feature function, operate the following operations.
  - 1) Click  $\swarrow$  on the right of the user.
  - 2) Click the authentication tag on the pop-up window.
  - 3) Click 🔕.
  - 4) Select devices that are with face features of the user.
  - 5) Click **OK,** and then click **Extract**.

The user can unlock with faces on the selected devices that are with IR face feature function.

### 3.2.2.2 Adding Staff in Batches

- <u>Step 1</u> Select **Personnel Manger** > **User** > **Batch Add**.
- <u>Step 2</u> Select card reader and the department of staff. Set the start number, number of card, effective time and expired time of card.
- <u>Step 3</u> Click **Issue**, and then the card number will be read automatically.
- Step 4 Click **OK**.

<u>Step 3</u> Select the needed staff information, and then click **Extract**.

<u>Step 4</u> In the list of staff, click 📝 to modify information or add details of staff.

### 3.2.2.4 Importing Staff Information from the Local

- <u>Step 1</u> Select **Personnel Manger** > **User** > **Import**.
- <u>Step 2</u> Import staff information according to instructions.

### **3.2.3 Issuing Card in Batches**

You can issue cards to staff who have been added but have no card.

#### <u>Step 1</u> Select **Personnel Manager** > **User**.

- <u>Step 2</u> Select the needed staff, and then click **Batch Issue Card**.
- <u>Step 3</u> Issue card in batches. Card No. can be read automatically by card reader or entered manually.
  - Read automatically
    - 1. Select card reading device, and then click **Issue**.
    - 2. According to the order list, put the cards of the corresponding staff on card reader in sequence, and then the SmartPSS Lite will auto read the card No..
    - 3. Modify staff information, such as start time and end time for card validation.
  - Enter manually
    - 1. Select staff in card list and enter the corresponding card No..

2. Modify staff information, such as start time and end time for card validation.

### **3.3 Permission Configuration**

### 3.3.1 Adding Permission Group

- <u>Step 1</u> Select **Personnel Manger** > **Permission Configuration**.
- <u>Step 2</u> Click **+** to add a permission group.
- <u>Step 3</u> Set permission parameters.
  - 1) Enter group name and remark.
  - 2) Select the needed time template.

#### $\square$

For details of time template setting, see *SmartPSS-Lite\_Access Control Solution\_User's Manual*.

- 3) Select verification method.
- 4) Select the corresponding device, such as door 1.
- <u>Step 4</u> Click **OK** to save operations.
- <u>Step 5</u> (Optional) Click 💼 to delete group.
- <u>Step 6</u> (Optional) Click *s* to modify group information.

#### <u>Step 7</u> (Optional) Double-click permission group name to view group information.

# **4 Attendance Period**

You can add, modify and delete attendance periods.

### 4.1 Adding Attendance Period

#### <u>Step 1</u> Select **Attendance Manager > Attendance Period**.

<u>Step 2</u> Click **Add**, and then set the basic information of the period, attendance period and attendance rule.

 $\square$ 

- You can mark the attendance period in color. When you arrange and apply shifts, the color will be displayed in the calendar.
- Start work time of the current period must not be earlier than end work time of the previous period.
- <u>Step 3</u> Configure attendance period parameters.
  - Fixed type: Set the working hour, valid check-in time, valid check-out time and more. The attendance period is fixed. For fixed type, add up to 8 attendance periods. Click **Cafe Period** to set cafe time and cafe duration. The cafe time must be between the latest check-in time and the earliest check-out time.

Figure 4-1 Set attendance period (fixed type)

# **5 Attendance Shift**

You can add, modify and delete attendance shift.

## **5.1 Adding Attendance Shift**

You can arrange shift by day, week or month. For monthly shift, you only need to arrange the shift of one month, and then other months will be scheduled in the same way. Here uses the weekly shift as an example.

- <u>Step 1</u> Select **Attendance Manager** > **Attendance Shift**.
- <u>Step 2</u> Click **Add** on the upper-left corner of page.
- <u>Step 3</u> Set the shift name, cycle mode and cycle period., and then click **Apply** to apply the time period to the selected weeks.

# **6 Shift Schedule**

You can arrange shift schedules for department or staff, arrange temporary shifts, as well as leave and business trips.

## **6.1 First-time Shift Schedule**

Here is the process for the first-time shift schedule.

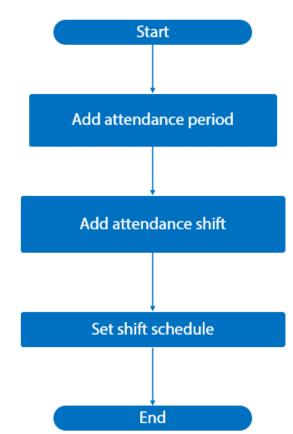

Figure 6-1 Process of first-time shift schedule

## 6.2 Daily Shift Schedule

### **6.2.1 Shifting Schedule for Department**

- <u>Step 1</u> Select **Attendance Manager > Shift Schedule**.
- <u>Step 2</u> Click **Department Schedule**.
- <u>Step 3</u> Select the department which needs to be arranged schedule, and then click **Add**. The attendance shift will be added automatically.

Click Handle to add several shifts to the department at one time.

- <u>Step 4</u> Set the start time, end time and shift.
- <u>Step 5</u> Set the rule as **Valid Overtime** to enable overtime ratio rules.

	$\sim$	$\sim$	
- 11			п.
- 11			
- 11			
1			

It is only available for department schedule and person schedule.

Step 6 Click OK.

 $\square$ 

After department schedule is applied, the existed schedules are being affected. The newly added personnel of the department is arranged to the department schedule by default. Priority: Department schedule < Single Person < Holiday < Temporary.

# **11 Attendance Configuration**

You can set attendance configuration, set calculation rule, add leave types and set report display symbols.

## **11.1 Setting Attendance Point**

For access controllers and attendance standalones, they need to be set as attendance points in advance, and then the platform receives attendance records after configuration.

<u>Step 1</u> Select Attendance Manager > Attendance Config > Attendance Point Settings.

<u>Step 2</u> In the device list, select the device that you want to be used as attendance point.

Step 3 Click OK.

## **11.2 Setting Calculation Rule**

You can set the calculation rule to adjust attendance accuracy.

- <u>Step 1</u> Select Attendance Manager > Attendance Config > Calculation Rule.
- <u>Step 2</u> Adjust the attendance accuracy. There are two kinds of rules.
  - Round up: For example, if check-in time is 9:00:01, it will be recorded as 09:01:00.
  - Round down: For example, if check-in time is 9:00:01, it will be recorded as 09:00:00.
- Step 3 Click OK.

Calculation Rule
Attendance Calculation Accuracy
Minimum attendance unit is 1 minute.

## 11.3 Adding Leave Type

It provides some common leave types. You can also add new leave types.

- <u>Step 1</u> Select **Attendance Manager** > **Attendance Config** > **Leave Type**.
- <u>Step 2</u> Select Leave, Business Trip or Paid Leave, and then click Add.
- <u>Step 3</u> Double-click the name in the new added type list to enter the name of leave.
- <u>Step 4</u> Click **OK** to confirm operation.

Leave Type			
Leave	🕂 Add 👕 Delete		
Business Trip	2		
Paid Leave 1	Туре	Operation	
	Annual Leave		
	Personal Le		
	Sick Leave		
	Maternity Leave	e	
	Paternity Leave	e	
	Childcare Le		
	Home Leave		
	Bereavemen		
	Please enter	3 🔹	
		4 OK Cancel

## **11.4 Setting Report Symbol**

You can set symbols to represent statistics in the reports. For example, use A to represents absent status.

#### <u>Step 1</u> Select Attendance Manager > Attendance Config > Report Display.

Figure 11-4 Set report display

Name	Operation	Configured symbols will be used for thumbnail display of reports
Vormal Work	Ø	
/alid Work		
Actual Work	Ø	Display Symbol:
eave and Business Trip		Z
ate	Ø	
Early Leave		
Absent	Ø	
Overtime Ratio 1		
Overtime Ratio 2	Ø	
Overtime Ratio 3		

<u>Step 2</u> Click *⊘* to edit report name.

#### Figure 11-5 Edit name

Edit Name			
Original Name	Normal V	Nork	
Onginal Name	Normany	VUIK	
Modify Name	Normal Work		
		ок	Cancel

- <u>Step 3</u> Select one kind of statistics, and then set the display symbol.
- Step 4 Click **OK**.

When you export the statistics as report, it will be displayed as the set symbol.

## **11.5 Setting Overtime Rule**

You can set overtime rules for weekdays and weekends. After setting the overtime rules, set the schedule rule as **Valid Overtime** when arrange schedules.

- For weekday, calculate working hours according to overtime ratio of different periods. For example, set the ratio of Monday as: 1 time for 0-2 h; 2 times for 2-4 h; 3 times for 4-24h. If staff A works overtime on Monday for 8 h, and then the calculated overtime hour is 2 × 1 + 2 × 2 + 4 × 3 = 18 h.
- For weekend, calculate working hours according to one pre-defined overtime ratio. For example, set the ratio of weekend as 2 times. If staff A works overtime on Weekend for 8 h, and then the calculated overtime hour is 2 × 8=16 h.
- <u>Step 1</u> Select Attendance Manager > Attendance Config > Overtime Settings.
- <u>Step 2</u> Select overtime ratio for 1 time, 2 times and 3 times.
- <u>Step 3</u> Set the overtime rules for weekdays. Drag the borders of the color areas to set overtime ratio for different overtime hours.
- <u>Step 4</u> Set the overtime rules for weekends
- <u>Step 5</u> Enable the needed overtime ratio, and then click **OK**.

# **12 Attendance Monitor**

You can view the real-time attendance data of the staff on the **Attendance Monitor** page.

 $\square$ 

To view real-time attendance data on the **Attendance Monitor** page, the following conditions must be met:

- Add staffs to the platform.
- Add devices to the platform. If you need to use access controllers to check attendance data, you need to set the devices as attendance points in advance, and then the platform receives attendance records after configuration. For details, see "11.1 Setting Attendance Point".
- Give staffs attendance permission on the device.

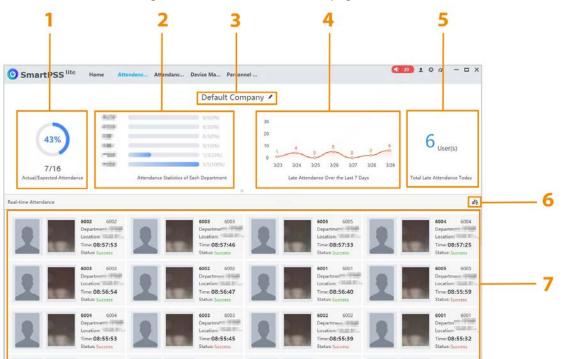

Figure 12-1 Attendance monitor page

No.	Parameter	Description
1	Actual/Expected Attendance	Displays the number and percentage of the actual/expected attendance. Click light/dark area of the pie chart to view the staff information of attendance/non-attendance.
2	Attendance Statistics of Each Department	Displays the number and percentage of the attendance statistics of each department.
3	Default name	Click 🖋 to modify the name of the page. Click 🚿 to close the viewing board.
4	Late Attendance Over the Last 7 Days	Display the number of late attendances over the last 7 days as a graph. Point to the graph to view the number of late arrivals per day.

Table 12-1 Description of attendance monitor page

No.	Parameter	Description
5	Total Late Attendance Today	Display the number of total late attendance today. Click the number to view the staff information of late attendance.
6	Sync Data	<ul> <li>Click 12 to synchronize list information.</li> <li>Synchronize staff information: Synchronize the information when the staff information and staff shift schedules are changed.</li> <li>Synchronized punch-card data: Synchronize the data of offline devices to the platform after the device goes online.</li> </ul>
7	Real-time Attendance	Display real-time staff attendance information.

# **13 Monitoring Condition**

Attendance terminal will send records of attendance to the SmartPSS Lite in real time when the staff uses the attendance terminal. You can view real-time records on the **Condition Monitor** page; but when you close the page, all records will be cleared.

To view the real-time attendance data by **Condition Monitor**, some conditions need to be met at the same time:

- Personnel have to be added to the SmartPSS Lite.
- Devices have to be added to the SmartPSS Lite. For access controllers, set attendance point first.
- Assign the attendance permissions to the needed personnel.
